Andrews Men Organize Club.

Andrews has taken another step forward. This time she has broken the law of custom and a number of her progressive men have organized themselves into an organization which they have named the Civic Club of Andrews. The purpose of the club is to promote civic improvements, and no other town in the state, we dare say, can boast of such an organization composed solely of men. The club already has plans for certain important improvements and with the co-operation of the Woman's Club and Board of Trade will make Andrews the most beautiful town in the state. We invite the state to watch Andrews dress up.—Andrews Sun.

Special School Tax.

Haywood county people will vote in November at the general election on the proposition of levying a special tax not to exceed ten cents for the school fund of the county. This was ordered by the board of commissioners at the session this week, pursuant to a petition from the county board of education.—Waynesville Courier.

Still Knocking Asheville Paper.

Says the Brevard News: "The Waynesville Courier attributes the weirdness of some of the Asheville Citizens' stories to the fact that the author is the discoverer of the famous subterranean rivers which once threatened to open and swallow Hendersonville and the adjacent county. To which The News would suggest likelihood of the same authorship as that connected with the stories of the falling of Caesar's Head and the smoking of Rumbling Bald mountain, which no doubt accounts for the unreasonable assertion that a dam built at the other end of Lake Tovaity would have made of Brevard nothing but a memory." Correct. And we believe it was the same authorship who a few years ago declared that there were four hundred vacant houses for rent in Asheville at the height of the tourist season in August while Hendersonville was so filled that tourists there had to be cared for in camps at Laurel park.—Waynesville Courier.

Cherokee County Railroad Work.

As the result of a rumor about town that the Hiwassee Valley Railroad had been sold and that preparations were being made to immediately begin the laying of steel this newspaper called Col. Haigler, of Hayesville, vice president of the road over the telephone Wednesday. Col. Haigler was asked if he could substantiate the rumor and in reply he stated that no deal had been closed but that the prospects of the road were bright. When asked if he would care to say anything for publication he said, "You might say that the railroad's prospects are very bright indeed, but up to this time a deal has not been made."—Andrews Sun.

Crooked Work on Crooked Creek.

Revenue Officer W. W. Neal, Sheriff Laughridge and Deputies Curtis and Duncan destroyed a large illicit distillery in Crooked Creek township Tuesday. The plant, with a capacity of 153 gallons, was in operation when discovered by the officers.—Marion Progress.

Saluda's New Bank.

Saluda has organized a new bank, capitalized at \$10,000 fully paid. It is to begin business at once, probably in a temporary home as it is said a beautiful new bank building will be constructed at once. This gives Saluda two banks with total capital of \$15,000.

Spartanburg people recognizing a great future for Saluda have taken a heavy interest in the new institution.—Tryon News-Bee.

Polk Politics.

The Democratic meeting, called by the Executive committee, to meet at Columbus, last Saturday, nominated J. T. Waldrop for Sheriff in the place of A. L. Hill, who withdrew from the race on account of business interest he must give his time to. Mr. Waldrop is at present Chairman of the Board of county commissioners.—Tryon News-Bee.

Employees Given Outing.

The management of the Champion Fibre company is being complimented on all sides for the handsome way in which they engineered the celebration of Labor Day, on Monday September 4th.

The proposition of the company to send two monster free excursions loaded down with Champion employees, families and friends, to Lake Junaluska to enjoy a big field day, picnic and celebration in honor of Labor's strong right arm, met with such an enthusiastic reception on the part of the recipients of the corporation's generosity that two loaded trains of ten cars each were loaded down with a total of about 1,600 people. At least 400 others journeyed in automobiles and otherwise, making a crowd which was conservatively estimated at 2,000 spectators and participants.—Canton Observer.

Road Work Stopped.

More than 1200 men and over 200 teams were thrown out of employment in McDowell county last week when Lieut. Gotsch, representative of the United States government, appeared on the scene and ordered all the relief work stopped. The Federal relief appropriations for the county amounted to about \$12,000. It is not known as yet whether any further aid will be received from this source, but for the present all the road work has ceased.—Marion Progress.

Rural Credits in McDowell.

Mr. E. W. Culbreth, of the State division of market and rural credits,

Raleigh, is here this week in the interest of establishing rural credit unions in McDowell county. Mr. Culbreth will discuss the different phases of the rural credit system at the farmers' institute at Glenwood tomorrow and at Asheville Friday. He will also speak at Belfont Friday night at 7 o'clock. Interesting meetings were held at Garden City and Stoughton Wednesday.—Marion Progress.

A Remarkable Man.

Capt. William Wilson, of San Saba, Texas, who has been spending some time with his two sons, Dr. J. E. and Billy Wilson, and daughter, Mrs. Laura Justice, spent most of last week calling on his many friends, outside his kinship. While he is in his eighty-eighth year, he walks and gets around, seemingly with more ease than many men at sixty. To my surprise, he can read ordinary print without the use of glasses. I have known this grand old patriarch since my early childhood, and can say without hesitation that I doubt if there is on earth today a man who has lived a cleaner and purer life than he. How many of the cigarette suckers and whiskey drinkers of today will attain to his age?—Bethel Correspondence Canton Observer.

Bridge Work.

The work is proceeding in the reconstruction of the new bridge at Marshall. It will take considerable time to get the bridge repaired. Bridges at other points will be built as soon as provisions can be made under which contracts can be let.—Marshall News-Record.

Canton Graded School Opened.

The Canton Graded school opened last Tuesday with an attendance of 637. Attorney J. Bat Smathers was present and delivered an excellent address, emphasizing the moral and practical side of education. Rev. W. C. Matney following Mr. Smathers, endorsing what he said, and emphasized the value of religion in education.—Canton Observer.

Horse Plunges Into Window.

Yesterday while George Lytle was sitting in his buggy at the lower side of the main railway crossing, his horse became frightened at a moving train, suddenly swerved around and plunged into one of the large glass windows, in the front of J. L. Nichols' store, breaking it almost completely out. The horse received a number of ugly gashes, but was not dangerously cut. It will cost from forty to fifty dollars to replace the glass.—Old Fort Sentinel.

Hotel Change at Rutherfordton.

An important real estate deal took place here Friday last when Mr. W. A. Harrill purchased the Southern Hotel from Mr. D. F. Morrow. The new owner stated to The Sun man that he is planning extensive improvements on the property which he will lease and continue to run as a hotel. The dining room will be put back on the first floor, a brick kitchen built in the rear of the main building and other necessary and up-to-date equipment installed in the earliest possible time.—Rutherfordton Sun.

Rutherford Free.

At a meeting of the County Medical Society held at Forest City Tuesday, it was stated by the physicians that there was not, nor has been, a single case of infantile paralysis within our borders, notwithstanding the many reports to the contrary. The Rutherfordton graded schools will open for the term on Monday morning next and parents can send their children with the assurance that there is no danger thus far from this much dreaded disease.—Rutherfordton Sun.

A PULPWOOD EXHIBIT AT THE STATE FAIR.

In view of the very high and still increasing prices of paper and the growing scarcity of the materials from which it is made, it has been suggested that one or more paper manufacturing plants be invited to come to North Carolina where in many localities wood suitable for pulp is still abundant.

Manufacturers, capitalists and consumers are all interested in this proposition and are casting about for a suitable location. For this reason the proposed exhibit of wood suitable for paper making at the coming State fair in Raleigh October 16-21, will be likely to attract national attention. It is proposed that each county or town, through its officers or chamber of commerce, exhibit one block of each kind of wood suitable for paper making, where such county has any large amount available for this purpose.

Blocks may be round, halved or quartered, 2 to 3 feet long, cut from logs more than 4 inches and less than 12 inches in diameter. Bark should be peeled off one end and left on the other. The name of the wood and of the exhibitor should be attached. An estimate of the amount available within six miles of all the railroads in the county should accompany the exhibit. Material should be sent by freight or express prepaid to J. E. Pogue, Secretary, State Fair, Raleigh, N. C., and marked Department N, Machinery Building. They should arrive not later than October 13. Space for the exhibit is furnished free.

The principal North Carolina species now suitable for paper making are poplar, hemlock, linn, spruce, chestnut and second growth pine of several species.

An exhibit of this kind, besides advertising your county, may have a very decided influence in securing a permanent manufacturing plant who will be in charge of this exhibit.

Cherryville has ordered more street paving to begin soon.

CALOMEL WHEN BILIOUS? NO! STOP!
MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" Is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50-cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

When temptations assail us and we are sore oppressed on every side, it is well for us to remember that "God's strength is always stronger than our strength." There is ever a superabundance of His strength, and no need of our lives can overtax it.—Ex.
